EXPERIENCE

Developer

SISL Infotech • Feb 2024 – Recent

Project named eCourts Project Phase III and my client's name is Delhi High Court, this project is a fully government project my work I have changed many HTTP Header because provides high Security and I have work with many API's and logical statement with the help of Java, SpringBoot and Restful WebService.

Java Developer

PIMT Technologies • Jan 2022 – Dec 2024

My project is a cash management system and my client's name is AMC India, my client provides one company with his company name is Cookware this place is in Bengaluru and it is manufacturing a steel product and has 70-80 branches all over India so inside the branch, there are defi-2 types of expenses like electricity bill, water bill, management etc so my work was generating an invoice and sending that to the manager with the help of the application.
